Michael "Mickey" Rogers
Grants Coordinator
Arizona State Parks
1300 West Washington
Phoenix, AZ 85007

Dear Mr. Rogers:

The Lake Montezuma Property Owners Association supports whole heartedly the efforts of the Coconino National Forest, in collaboration with the Beaver Creek Trails Coalition, to construct and maintain trails in the Rimrock (which includes Lake Montezuma) area.

The association understands that the Coconino National Forest is applying for funding to complete the Sunset Group of trails on the public lands on the eastern boundaries of several of our membership housing subdivisions. These trails are in an area which is extremely popular with local residents. We believe that this work will provide the benefits of safety, health, recreation, and economic as well as decrease environmental damage to a very scenic location.

Please give strong consideration to this application for funding under the State Parks RTP grant program.

Sincerely,

Janet Aniol, president
