Re: Letter of Intent for Parcel No. 405-05-110

To Whom It May Concern:

Enclosed is an Administrative Review permit application (“Application”) for Arizona Water Company (“Company”) to drill a replacement well for its Rimrock Well No. 3 (“existing well”) and construct an electrical panel and chlorinator on Parcel 405-05-110. The Company owns the adjacent Parcel, 405-05-114A, where the existing well is located. In the enclosed Application, the Company intends to drill a replacement well on Parcel 405-05-110 with the same flow capacity as the existing well. The replacement well will use the existing arsenic removal facility for continued compliance with the United States Environmental Protection Agency Safe Drinking Water Act requirements.

Please review and process this application and contact me at the above phone number if you have any questions.

Very truly yours,

Andrew J. Haas, P.E.
Director of Engineering
